I enjoy learning software systems, using them to solve problems, and explaining their concepts and usage. I'm looking for opportunities to do that with a team of people working on solutions that will improve people's lives.

I was an embedded software engineer for three years, then left the industry in 2005 to pursue people-oriented work. I was fortunate to find it at a large bike shop, where I've enjoyed the flow of a variety roles, from selling bikes to administering software, all focused on connecting our customers with cycling. In my free time, I have expanded my software development skills by building responsive websites back-to-front.

## Skills

Adapting, Assimilating, Coding, Communicating, Debugging, Editing, Explaining, Learning, Programming, Researching, Teaching, Testing, Training, Troubleshooting

**Software Development:** Python, SQL, Git, Linux/Unix, Test-Driven Development

**Web Development:** Django, Flask, Selenium, PHP, HTML, CSS, JavaScript, jQuery, Responsive Design, Typography

## Experience

### Freelance

#### **Full Stack Web Developer**

2006-Present

- Built a Flask web application to transform CSV files into searchable and sortable tables, enabling a small retailer to quickly analyze sales reports
- Built my band's website using custom Django applications
- Built my personal website with the Pelican Python framework
- Built a musician's website with the Perch PHP framework
- Developed a PHP framework for quickly building brochure websites
- Built single-page brochure websites with responsive layouts

Belmont Wheelworks  
Belmont, MA

#### **IT Operations Manager**

2007-Present

- Configured and managed the MindBody web application to replace a paper binder for appointment booking
- Configured and managed Google Apps for email, calendars, documents, and intranet
- Wrote Python scripts to sync store inventory to website catalog
- Wrote SQL queries and Python scripts to generate custom reports of customers and inventory
- Developed a physical count procedure and data collection utility to improve inventory accuracy
- Built and managed the business website using the SmartEtailing CMS and developed a custom front-end with CSS and JavaScript
- Built a Squarespace website for the in-house frame builder
- Managed a major upgrade of the CounterPoint retail management software
- Established and managed the relationship with an IT consulting firm to ensure timely and competent network management for all locations
- Provided IT vendors with on-site troubleshooting and new project scopes
- Provided staff training and support for all software systems

### **Bicycle Fitter, Buyer, Salesperson**

2006–Present

- Improved clients' riding position through bicycle adjustments and coaching
  - Completed bicycle fitting certification programs from SBCU, SICI, and Retül
  - Managed customer relationships by email, phone, and appointment
  - Trained staff and customers on electronics
  - Ordered and stocked electronics, saddles, nutrition, and media
  - Sold bicycles, clothing, accessories, and parts
- 

Darwin's Ltd.  
Cambridge, MA

### **Buyer, Sandwich Maker, Barista**

2005–2006

- Ordered and stocked raw ingredients and paper goods
  - Prepared and served beverages and sandwiches
- 

Applied Innovation Inc.  
Dublin, OH

### **Software Engineer**

2001–2005

- Assumed sole development responsibility for a troubled network device, turning it into a major new source of income
- Designed, developed, and documented new features for network devices using 68k Assembly, C, C++, Java, and Python
- Designed and developed a Perl web application for automated regression testing of network devices

- Designed and executed test plans for network devices
  - Completed several minor software releases as sole developer
  - Completed several major software releases on a small team
  - Diagnosed and addressed field issues in conjunction with customer service
- 

## The Ohio State University

Columbus, OH

### **System Operations Center Operator, Lab Consultant**

2000-2002

- Responded to help requests in a Unix and Windows environment
- Designed and developed a graphic FAQ editor in Java
- Provided programming and Unix assistance to students in labs of 50-100 computers

### **Grader**

1999-2000

- Graded papers for an introductory software development course in C++
- Provided guidance for 35-40 students during and outside of class

## Education

---

## The Ohio State University

### **Bachelor of Science, Computer & Information Science**

2002

- Graduated Cum Laude with Honors in the Liberal Arts, 3.640 GPA
